PONSSE / EPEC STUDENT DEAL

PONSSE/EPEC STUDENT DEAL

TAMPERE UNIVERSITY AND PONSSE/EPEC are again launching a program to offer an opportunity for a few students to combine their masters studies with working and learning-on-the-job experience. The goal of this program is to make a close connection between you and PONSSE/Epec already throughout your studies and, as importantly, ensure that you manage to graduate within the planned timeframe of two years.

WHAT

An opportunity to gain working experience in international and development friendly organization, where you have a possibility to work with State-of-the-art technologies. We offer students proper orientation and induction to PONSSE/Epec as companies and their operations, summer job, part-time working, diploma work, in-house mentoring and training.

TO WHOM

Tampere University Information Technology or Automation Engineering or Data Science students started/starting their MSc studies in 2024–2025.

PONSSE is currently looking for expertise especially in Machine automation related signal processing and Data engineering & analytics, API development and mobile application development.

EPEC is looking for students who are willing to work with non-road mobile machines and commercial vehicles, and deepen their knowledge in specific areas of control system development. At Epec we have versatile tasks from model-based-design to software design and testing.

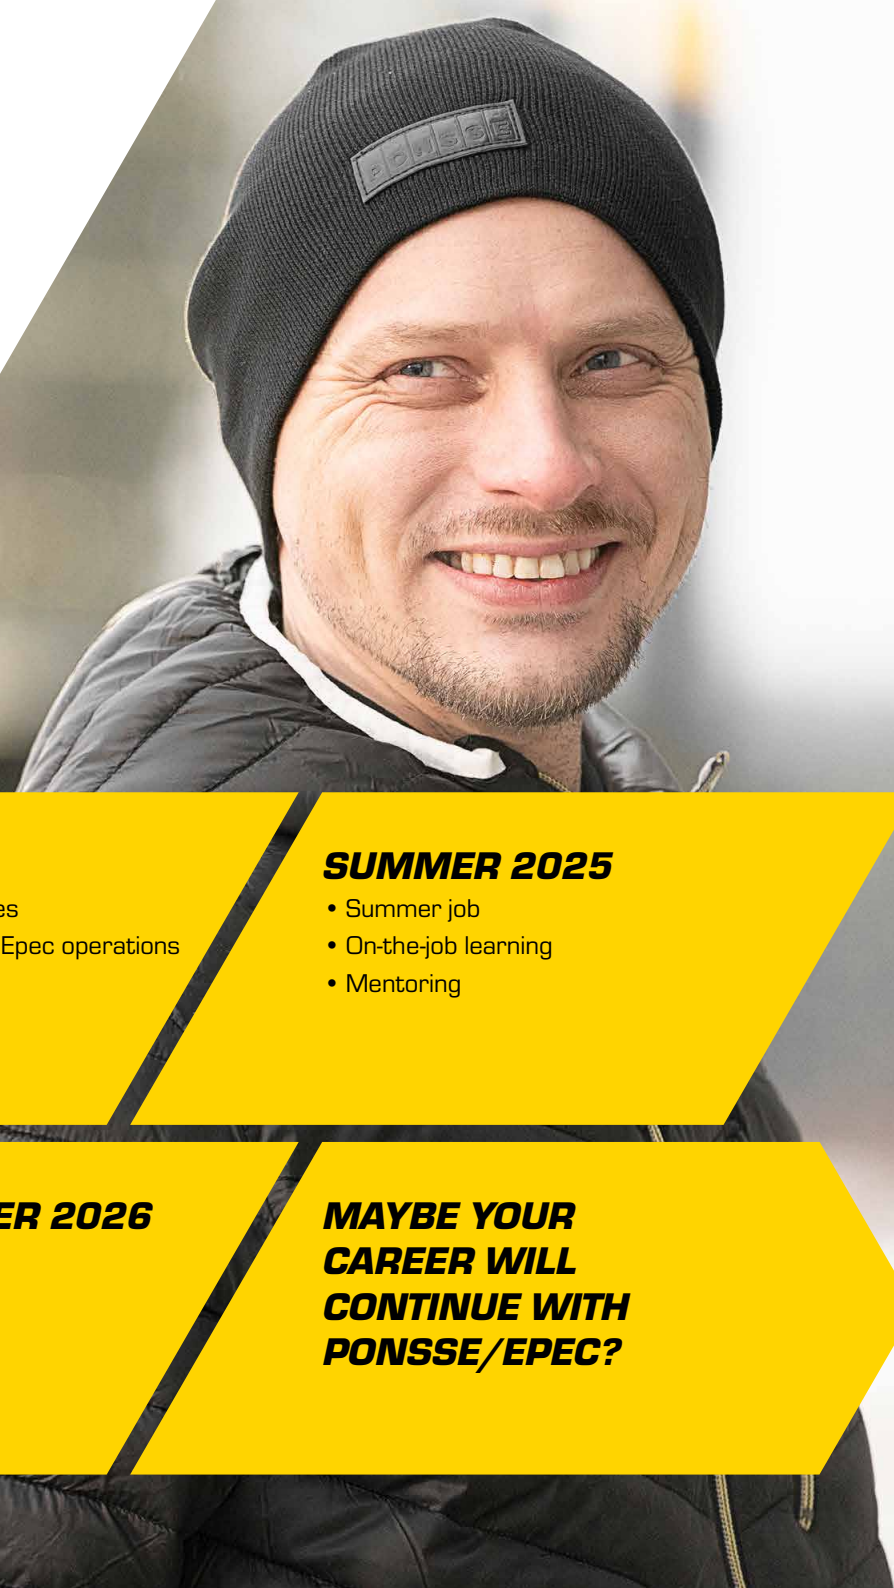

WHEN

As of spring 2025 to graduation in summer 2026.

Please apply for the program no later than December 8th 2024.

WHAT HAPPENS AND WHEN?

AUTUMN 2024

- Full time academic studies

- Mentoring

SPRING-SUMMER 2026

- Diploma work
- On-the-job learning
- Mentoring

***MAYBE YOUR
CAREER WILL
CONTINUE WITH
PONSSE/EPEC?***

WHAT IS THE DEAL ABOUT?

Making a deal is about making promises and commitments.

Your work tasks and responsibilities during the working periods will be designed so that they support your studies. You will have a named personal mentor within the company, and opportunities to learn working life metacompetences, such as teamwork, communication skills and problem solving, will be arranged at PONSSE/Epec.

STUDENT

Takes the most out of the program in good cooperation with TAU/PONSSE/Epec and commits to graduating within the planned timeframe.

TAMPERE UNIVERSITY

Ensures that the study program enables realizing the program.

PONSSE/EPEC

Offers the opportunities and support described in the program.

GOT INTERESTED?

THE PONSSE/EPEC STUDENT DEAL opportunity will be opened for applications in 18th of November 2024 and is open until 8th of December. The selection process will be conducted by December-January.

PONSSE

Ponsse Plc is a company specialising in the sales, production, maintenance and technology of cut-to-length method forest machines. It is driven by a genuine interest in its customers and their business. Ponsse develops and manufactures sustainable and innovative harvesting solutions based on customers' needs.

Throughout its history, the value-driven family company, established by forest machine entrepreneur Einari Vidgren, has only focused on cut-to-length forest machines. Today, more than 20,000 PONSSE forest machines have been completed at the Vieremä factory for global logging sites, customised to meet customers' needs. Hailing from Vieremä, Finland, Ponsse is one of the world's leading forest machine manufacturers. The company's shares are quoted on the NASDAQ OMX Nordic List.

EPEC

Epec Oy is a system supplier specializing in advanced electric/electronics for efficient, safe and connected NRMM non-road mobile machines and commercial vehicles. Being close to our customers is how we continuously co-create and innovate sustainable future technology solutions that make a difference. Epec works in cooperation with leading international machine manufacturers and belongs to the Ponsse Group.
